## ENGINEER - CONSTRUCTION SOLUTIONS

CEMENT CONCRETE  
& AGGREGATES AUSTRALIA

Cement Concrete & Aggregates Australia (CCA) is the peak national body for Australia's \$6b heavy construction materials industry. A unique opportunity is available for a qualified Civil or Structural Engineer to deliver concrete-based engineering solutions to the building and construction industry, and be the principal contact for CCA in South Australia.

Reporting directly to the Manager, Construction Solutions and working closely with members of the Construction Solutions team, responsibilities of this role include :-

- developing and implementing strategies for delivering concrete solutions to the building and construction industry;
- providing support and relevant industry information to the Association's marketing development team;
- identifying major projects in SA and ensuring that key decision makers are informed and have considered the concrete solution;
- engaging with consulting engineers, architects and construction personnel to realise the benefits and utilise concrete in projects.

This exciting opportunity would ideally suit someone with a design or construction background seeking to move into a client interfacing position, where relationship building and the ability to identify commercial opportunities for industry will be the key to your success.

We seek an individual with strong technical skills and appropriate tertiary qualifications, who is looking for a diverse and challenging role to make their mark in the construction industry.

**For a job and person specification, please visit [www.hender.com.au](http://www.hender.com.au) and for further information on our client, please visit [www.concrete.net.au](http://www.concrete.net.au)**

**Applications in Word format only should be forwarded to Justin Hinora by e-mail to [10848@hender.com.au](mailto:10848@hender.com.au)**

**Telephone enquiries may be directed to Sarah Murphy on (08) 8100 8890.**
