

Library Services of Cement Concrete & Aggregates Australia

your gateway to cement concrete & aggregate information

About CCAA

Cement Concrete & Aggregates Australia (CCA) is the peak industry body representing the \$6 billion heavy construction materials industry. CCA is committed to being the major source of information on cement, concrete and aggregates in Australia. It sources up-to-date information from around the world and makes it accessible through publications, technical data and its library. This commitment is encapsulated in its positioning statement **Leading Knowledge – Sharing Information.**

About our Library

CCA's library has been an integral part of CCA since the early 1950's serving as a gateway to information to promote intellectual discovery for those involved in the heavy construction materials industry. Towards this end the library provides quality services, collections and facilities supporting CCA's commitment to leading knowledge and sharing information.

Who does the CCA Library serve?

CCA library services are available to CCA member companies, industry professionals, students and lecturers or anyone with an interest in cement, concrete and aggregate based applications, across Australia. Enjoy the benefits of becoming a borrower by completing an application form.

CCA Library Services

Our comprehensive library is housed in the CCA Sydney office. This significant resource comprises books, magazines, journals and recorded media on many aspects of cement, concrete and aggregate technology, design and construction.

- Most of this material can be borrowed by individuals or via inter-library loans.
- Our library collection comprises over 100,000 records dating from the early 1900's.
- The on-line database is updated daily and comprises over 50,000 records dating from the early 1980's.
- A powerful search engine based on keyword and Boolean searching ensures your search will produce highly refined results.
- The database – together with other library resources – can be accessed via our website www.cca.com.au 24 hours a day, 7 days a week. We invite you to bookmark this significant online resource for cement concrete and aggregates now.
- Our professional library staff are on-hand to assist you with any searches you require on specific topics of interest and/or bibliographies.
